

Consistent with our resolution passed 10/8/2014, SCPTSA reaffirms our support of the proposed revised start times to conform to the healthy standards for adolescence, and asks the Seattle School Board to adopt the proposed schedule at their 11/4/15 meeting. While the proposal provides a healthy bell time for nearly 100% of secondary students, some elementary and K8 schools are at a later than optimal time. We support continuing to improve the schedule so that *all* of our schools start at times that support learning, health and safety.

Seattle Council PTSA Board
